

## Supplementary data

<b>S1Table.</b> Search strategy in Medline, ScienceDirect, and Weily.
<b>S2Table.</b> Search strategy in Web of Science, OVID, and Embase.
<b>S3 Table.</b> Methodological quality of included studies included in the meta-analysis.
<b>S4Table.</b> Characteristics of the included studies.
<b>S5Table.</b> Meta-regression analysis.
<b>S1 Figure.</b> Forest plot of MMR status and risk of MPC (MSI vs MSS) adjust for study quality.
<b>S2 Figure.</b> Forest plot of MMR status and risk of MPC for HNPCC (MSI vs MSS).
<b>S3 Figure.</b> Forest plot of mutant locus and risk of MPC (MSI vs MSS).
<b>S4 Figure.</b> Begg's funnel plot with pseudo 95% confidence limits for overall studies.
<b>S5 Figure.</b> Begg's funnel plot with pseudo 95% confidence limits for non-HNPCC studies.
<b>S6 Figure.</b> Begg's funnel plot with pseudo 95% confidence limits for adjusted studies.

**S1Table.** Search strategy in Medline, ScienceDirect, and Weily.

1. MSI

**S4Table.** Characteristics of the included studies

Author/Year	Country	Study period	Number of patients	Site	Adjusted or matched variables
Horri/1994	Australia	-	212	Colorectal,stomach,pancreas,lung,liver,biliary,uterine,esophagus,thyroid, head and neck, hematologic	-
Brown/1998	United Kingdom	1987-1996	155	Colorectal,multiple colorectal, stomach,uterine, ovarian	Age, location, and family history
Kiriw/1998	Japan	1992-1996	27	Head and neck, esophageal	Age, gender, location, and staging
Abe/2000	Japan	-	110	Colorectal,multiple colorectal	Age, gender, location, histological type, and staging
Kim HS/2001	Korea	1997-1998	288	Colorectal, stomach	Age, gender, location, and staging

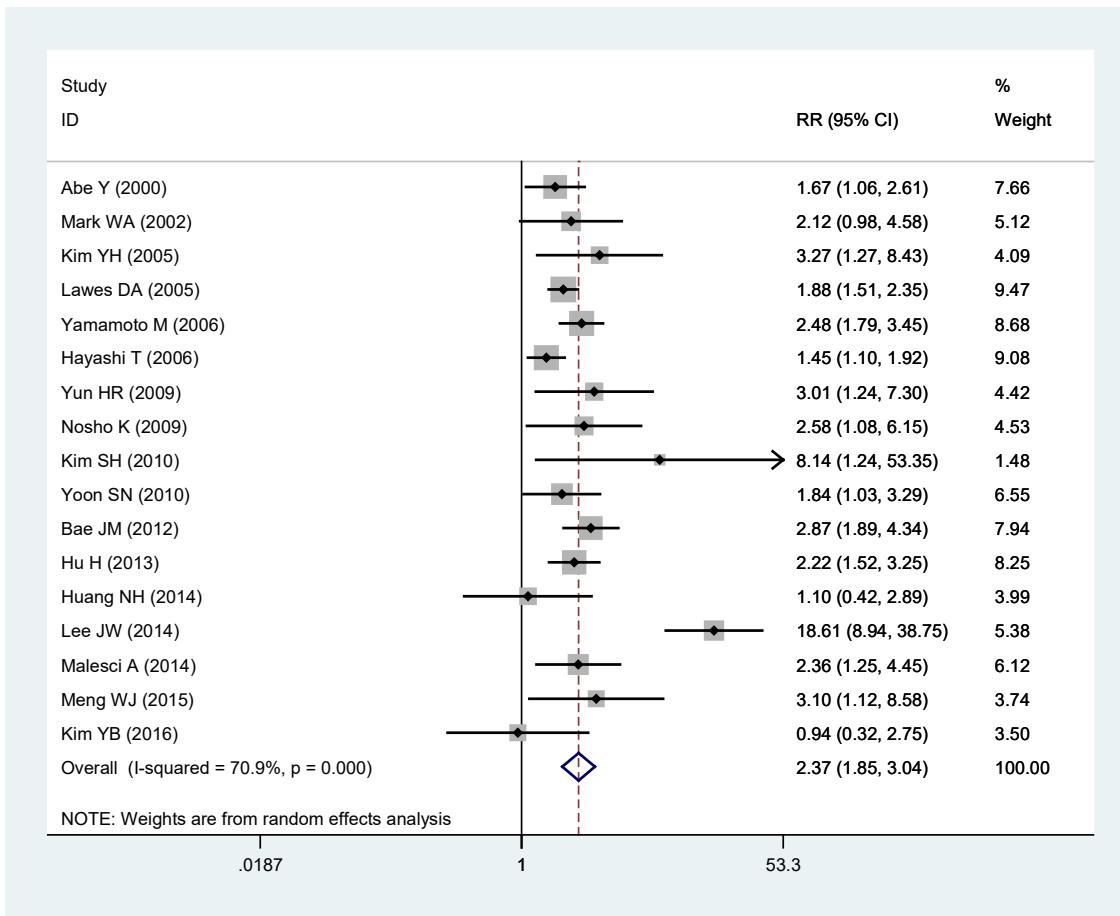

Mark/2002	Australia	-	362	Colorectal,multi ple colorectal	Age, gender, location, histological type, and staging
Kim YH/2005	Korea	1994-2002	238	Colorectal, stomach	Age, gender, location, histological type, and staging
Lawes/2005	United Kingdom	1972-1997	152	Colorectal, multiple colorectal	Age, gender, and location
Yamamoto/2006	Japan	1974-1999	125	Colorectal, stomach	Age, gender, location, histological type, and staging
Hayashi/2006	Japan	1980-2001	205	Colorectal, stomach	Age, location, and family history
Yun HR/2009	Korea	1994-2004	501	Colorectal,stomach, duodenum, small bowel, biliary,lung,pancreas,liver,uterine,hematologic, breast,gynecologic, thyroid	Age, gender, location, histological type, and staging
Nosho/2009	USA	1976-2004	1107	Colorectal,multi ple colorectal	Age, gender, location, histological type, family history, and staging
Kim SH/2010	Korea	2004-2009	128	Stomach,multi ple stomach	Age, gender, location, histological type, family history, and staging
Yoon/2010	Korea	1989-2008	8680	Colorectal, Stomach	Age, gender, location, histological type, family history, perineural invasion, lymphovascular

						invasion, and staging
Bae JM/2012	Korea	2004-2006	151	Colorectal,multi ple colorectal	Age, gender, location, histological type, and staging	
Hu H/2013	USA	2002-2012	167	Colorectal,multi ple colorectal	Age, gender, location, histological type, and staging	
Huang/2014	Taiwan	1995-2001	87	Ovarian,endome trial	Age, location, and histological type	
Lee JW/2014	Korea	2003-2012	718	Colorectal,stom ach,thyroid,pros tate,esophageal	Age, gender, location, lymphovascular invasion, tumor size, and staging	
Malesci/2014	Italy	1998-2006	881	Colorectal,multi ple colorectal	Age, gender, location, histological type, and staging	
Cho I/2014	Korea	2005-2010	2594	Colorectal,stom ach,biliary,lung, pancreas,liver,ut erine,hematolog ic,breast,thyroid ,gynecologic	Age, gender, location, tumor size, and staging	
Meng/2015	Sweden	1972-2001	601	Colorectal,multi ple colorectal	Age, gender, location, histological type, surgery, complication, recurrence, and staging	
Kim YB/2016	Korea	2005-2013	596	Colorectal, stomach	Age, gender, location, lymphovascular invasion, tumor size, and staging	

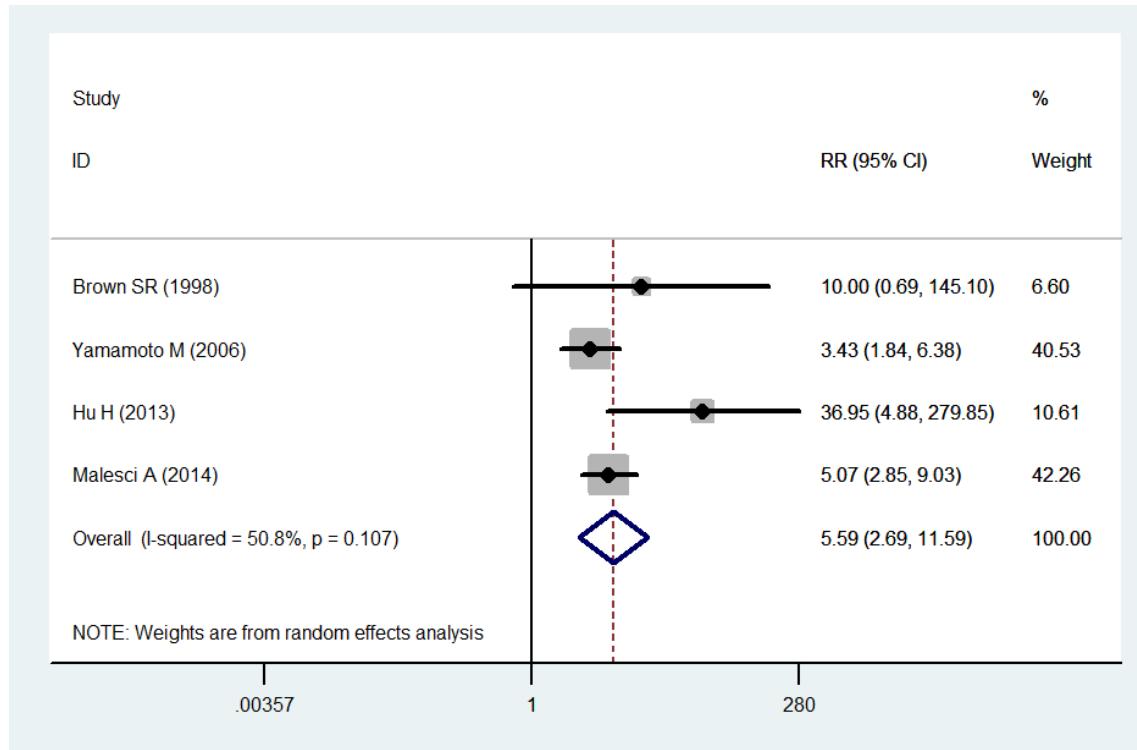

**S5Table.** Meta-regression analysis.

Variable	Coefficient	Standard error	P value	95% CI
Study design	3.19	1.52	0.025	1.18 - 8.63
Study quality	3.01	1.06	0.005	1.44 - 6.29
MSI detection method	1.18	0.18	0.285	0.86 - 1.62
Publication year	0.81	0.32	0.595	0.36 - 1.83
Country	0.96	0.09	0.648	0.80 - 1.15

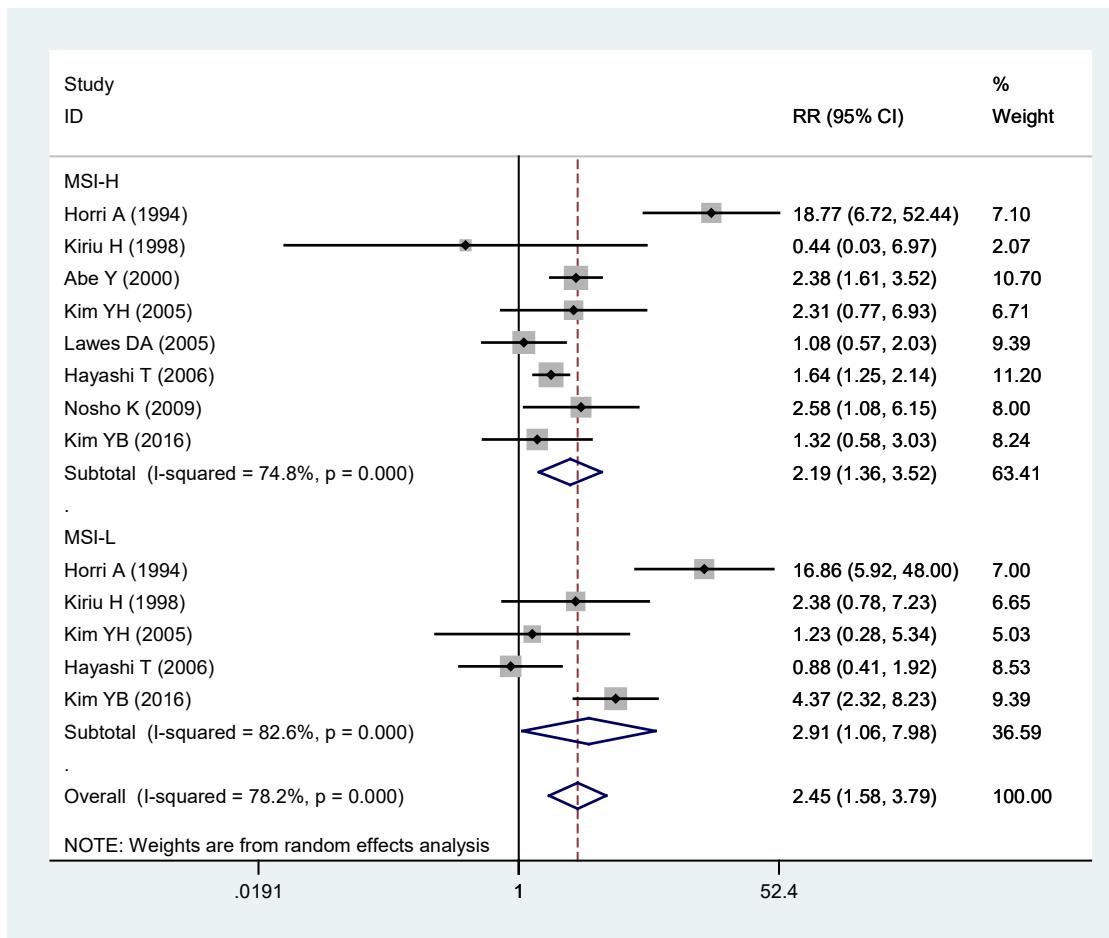

**S1 Figure.** Forest plot of MMR status and risk of MPC (MSI vs MSS) adjust for study quality.

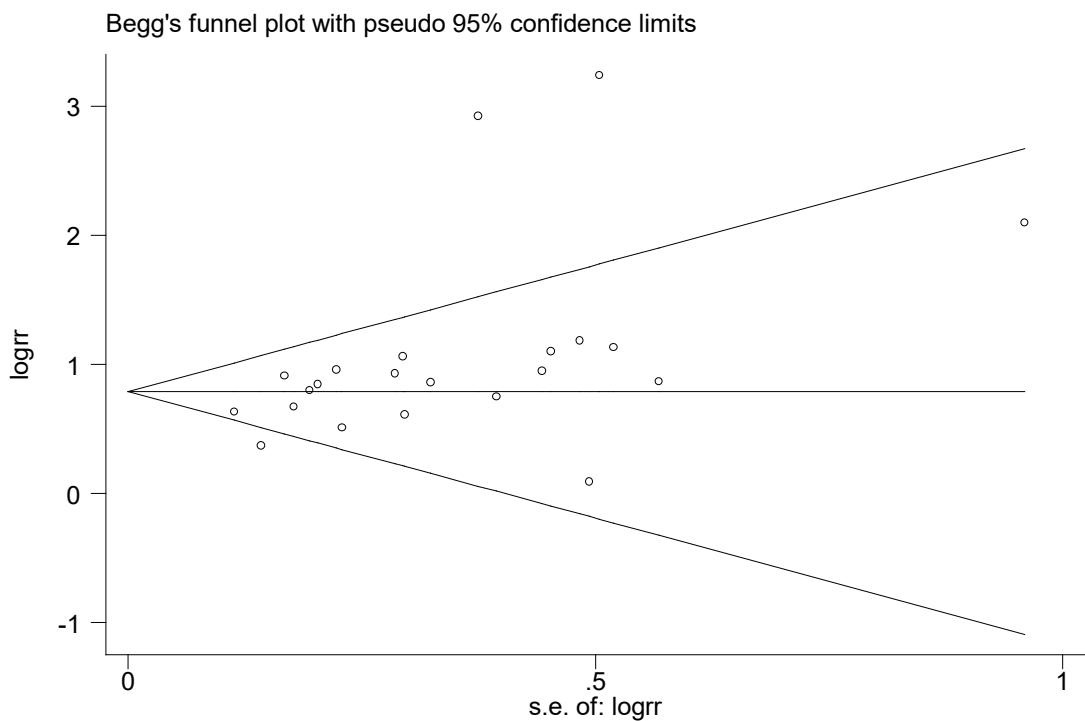

**S2 Figure.** Forest plot of MMR status and risk of MPC for HNPCC (MSI vs MSS).

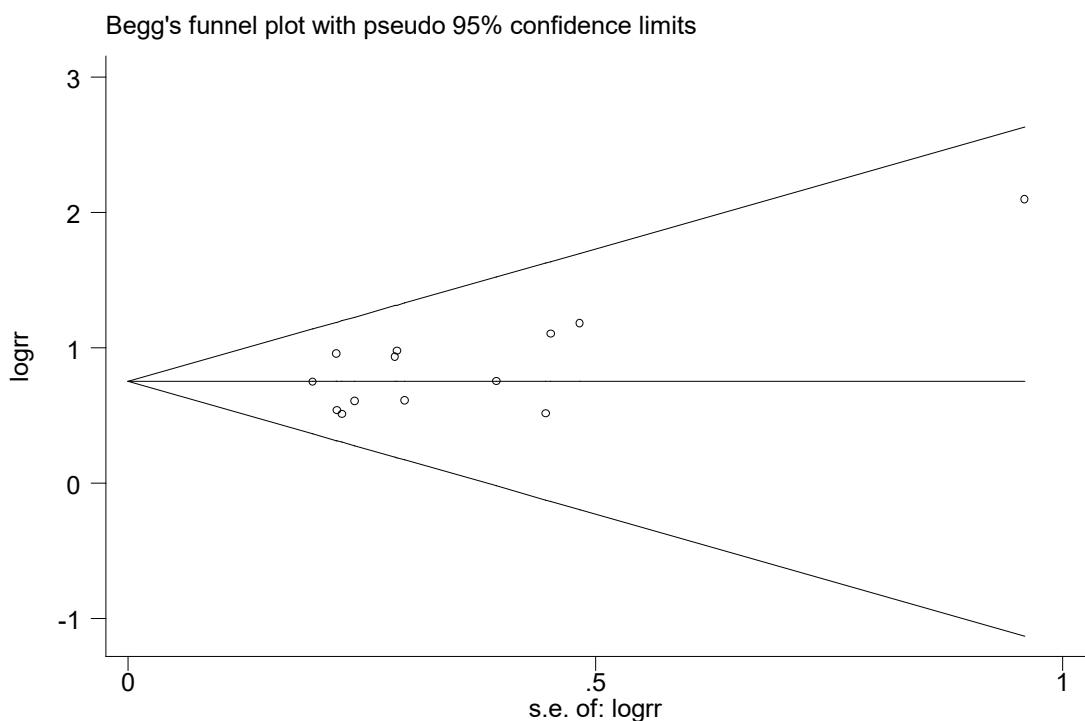

**S3 Figure.** Forest plot of level of MSI and risk of MPC (MSI vs MSS).

**S4 Figure.** Begg's funnel plot with pseudo 95% confidence limits for overall studies.

**S5 Figure.** Begg's funnel plot with pseudo 95% confidence limits for non-HNPCC studies.

**S6 Figure.** Begg's funnel plot with pseudo 95% confidence limits for adjusted studies.
