

Journal of Cancer

NUn score

- CRP + Albumin + WBC
- Marker for inflammation and nutrition
- HR **1.78** (P<0.001)

Study Design

- NSCLC
- Stage I to IIIA
- Median age 69 yr
- R0 resection
- Purpose: Assess the NUn score's prognostic value for overall survival.

NUn Model

- NUn score
- Age
- ASA PS
- Pleural invasion
- TNM stage

NUn > Baseline Model

- C-index (0.832 vs 0.720)
- iAUC (0.802 vs 0.705)
- 3-and 5-year AUC, continuous NRI (cNRI), IDI, and Decision Curve Analysis (DCA)

Baseline Model

- TNM stage

Cover feature: Prognostic Value of the Noble and Underwood Score in Patients with Non-Small Cell Lung Cancer Undergoing Surgical Resection
