

SUPPLEMENTAL MATERIAL

Title:

Comparison of different images in gross target volume delineating on VX2 nasopharyngeal transplantation tumor models

Inventory of Supplemental Information

- Supplemental Fig. 1 (Page 1)**
- Supplemental Fig. 2 (Page 2)**

Figure S1. The different SUV threshold values on ^{18}F -FLT PET/CT images. “*” represents no statistically significant difference of GTV_{FLT} in compared with GTV_p ($P > 0.05$).

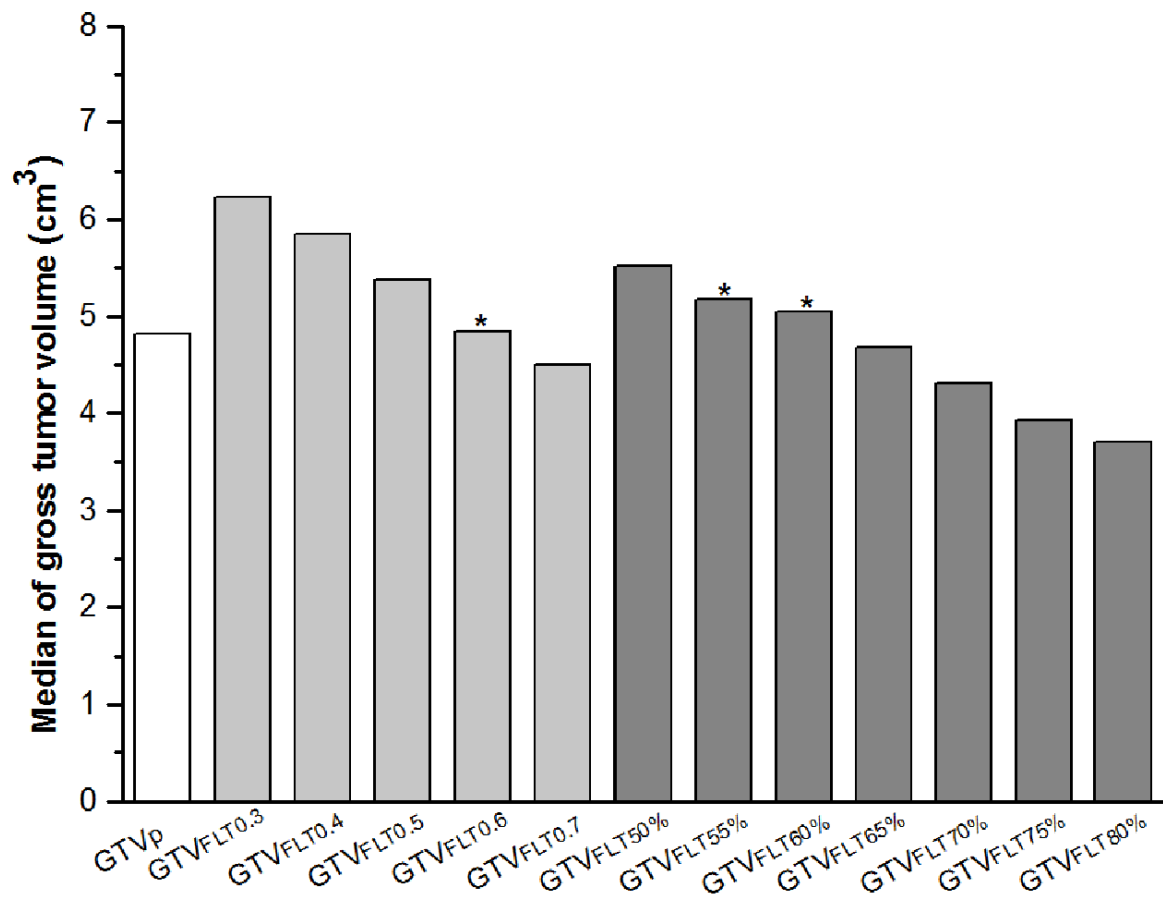

Figure S2. The different SUV threshold values on ^{18}F -FDG PET/CT images. “*” represents no statistically significant difference of GTV_{FDG} in compared with GTV_p ($P > 0.05$).
